

02 → The Joint Venture Team

Lyons is a joint venture between the Defence Housing Authority (DHA) and Canberra Investment Corporation Ltd (CIC).

The role of the DHA is to provide housing and relocation solutions for all members of the Australian Defence Force. A primary objective is to ensure that Defence families enjoy a standard of housing that is at least equal to that enjoyed by other families in the communities in which they live.

CIC is a publicly listed development corporation. Their primary activities are medium to large scale residential and mixed use communities. CIC's primary locations are Canberra, NSW coast, Adelaide and now Darwin. CIC's project team for Lyons is primarily drawn from Darwin.

Over the next 5 years it is proposed to develop a new community comprising about 690 dwellings at Lyons. Of these, approximately 300 lots will be developed by the DHA to accommodate existing and relocated Defence families in Darwin.

The balance of lots not required by DHA for Defence housing will be marketed by the Joint Venture to private purchasers and the Darwin building industry.

The Project Team

DARWIN	
Territory Project Consultants	Project Management
Connell Wagner	Town Planning, Engineering Design
Earl James and Assoc	Surveying
Hassell Architects	Architectural Theme and Guidelines
